MONITOUCH

Safety Considerations

- For safe operation, read the instruction manual or user manual that comes with the product carefully or consult the distributor from which you purchased the product, before using the product.
- Products introduced in this catalog have not been designed or manufactured for such applications in a system or equipment that will affect human bodies or lives.
- Customers, who want to use the products introduced in this catalog for special systems or devices such as for atomic-energy control, aerospace use, medical use, passenger vehicle, and traffic control, are requested to consult the Hakko Overseas Sales Section.
- Customers are requested to prepare safety measures when they apply the products introduced in this catalog to such systems or facilities that will affect human lives or cause severe damage to property if the products become faulty.
- For safe operation, wiring should be conducted only by qualified engineers who have sufficient technical knowledge about electrical work or wiring.

Notes to consider before purchasing

- Appearance and specifications are subject to modification without prior notice due to technical improvements.
- Colors in the catalog may differ from the actual colors due to printing inaccuracies.
- Consult your distributor or us for further information about products in this catalog.

V9 series
V9 makes automation complete.

Hakko Electronics Co., Ltd.

The new MONITOUCH series scales new heights of excellence; optimum operability, intuitive controls, and extended capability to display and utilize your application.

On its release in 1988 as the first ever programmable display*, MONITOUCH augured in a new era of human-machine interface technology. It is now used as an information terminal for countless different purposes in production sites all over the world. The total number of shipments has reached around one million.

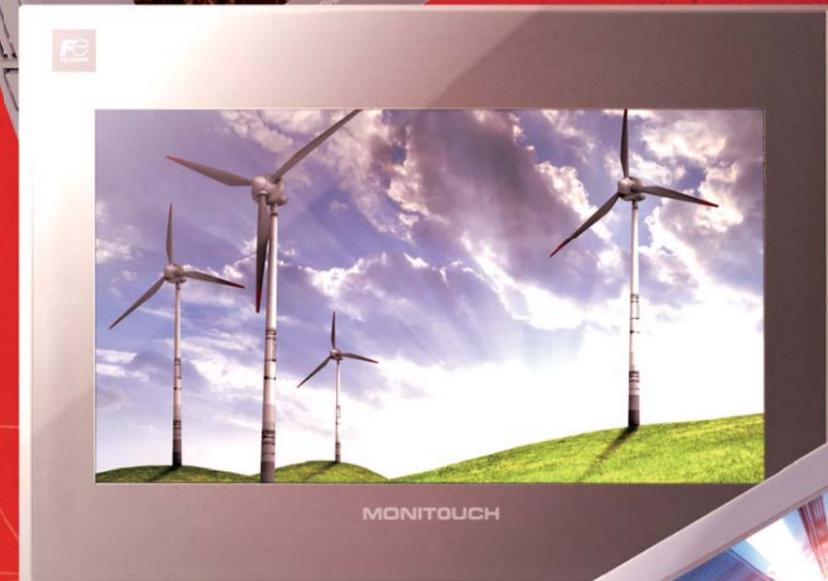

Now, Hakko Electronics Co., Ltd. has introduced its new range with an impressive array of exciting new cutting-edge features expressly designed to meet the needs of our clients.

The MONITOUCH PREMIUM series, the next generation of programmable displays, is here.

*According to our own research.

*1: Only for pictures, 3D parts and videos. Other items are displayed in 65,536 colors. *2: Depending the model. *3: When optional unit DUR-00 is installed.

Kindness to our customers is the origin of

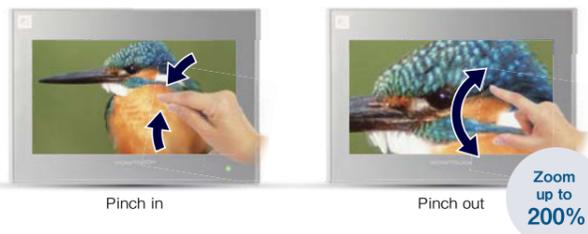

PANEL
The capacitive touch panel is adopted.^{*1}
You can operate freely by using your intuition

*1: Only V9 advanced model.

Smooth Operation with Your Fingers

Zooming In and Out with Two Fingers V9 Advanced

The displayed image can be magnified up to 200% by pinching out the screen^{*2}, and reduced to the original size by pinching it in.

*2: The image can be scaled up and down by double tapping for V9 Standard/Lite.

Scrolling Magnified Images

You can view a particular part of a magnified image in close-up while scrolling around the screen.

Abundant Quantity of Information

Displaying Four Times the Screen Size First in industry

Twice in width

Twice in height

The whole area of a large image can be confirmed easily by scrolling the screen without the need of switching it. The navigation window helps you to recognize the current displayed position instantly.

Information Max. 4 times

4 times in width

4 times in height

*3: According to our own research.

Widescreen LCD V9 Advanced

V9 Advanced models is equipped with a high-precision, high-resolution widescreen (16:9). Greater volume and variety of information can be displayed on the screen.

evolution of MONITOUCH.

Enhanced Display Capacity

TrueType Fonts for Clear Expression

TrueType fonts have been added, and the new anti-aliasing function ensures clear expression. There is no need to worry about memory capacity, because TrueType fonts need less memory compared with Windows fonts.

PDF Viewer Function

PDF files stored on SD cards can be displayed. PDF instruction manuals can be used for troubleshooting.

Reading PDF file

Convenient

Fast navigation to the desired page, using bookmarks.

7-segment Fonts for Realistic Expression

7-segment fonts allow for realistic, highly visible expression of measuring instruments.

Non-illuminated segments can be shown in a subtle color.

Video/RGB Input-Output Support

By attaching an optional unit, videos and RGB images can be displayed on the V9. Also, images displayed on the V9 can be sent to external displays.

Supports 16.7 million colors

Optional unit

Model	Item
GUR-04	Video IN : 1CH
GUR-01	RGB IN : 1CH
GUR-02	RGB OUT : 1CH

*4: The GUR-01 supports 65,536 colors.

Versatile Screen Transition Functions

15 kinds^{*5} of functions are available for screen switching and overlapping.

E.g.) Slide-in

15 kinds of screen change

*5: Four types for overlapping windows.

Compatible with Vertical Placement

The screen can also be displayed and edited while the panel is placed vertically (by left or right turning).

E.g.)

Main Menu Screen can also be displayed vertically.

For all models

V9101IW V9100IS

COLOR

Displays 16.7 million colors^{*6} for delicate expression of gradation

*6: For the display of pictures, 3D parts and video/RGB images only. Other parts are displayed in 65,536 colors.

Easy and safe network monitoring and control

VNC Server Function

Remote Connection from Tablet PCs

All types of the V9 series are equipped with VNC server function for remote monitoring and control of production from your tablet PC.

Wireless LAN Function

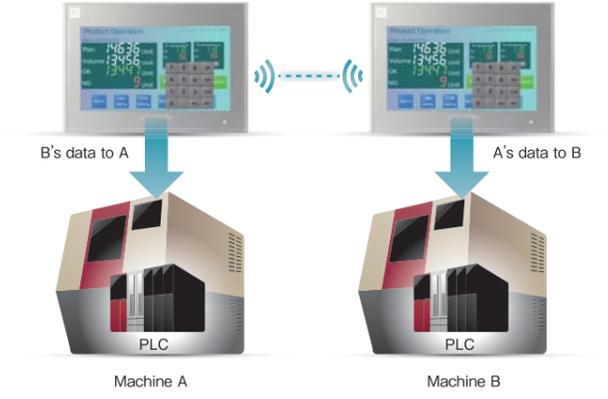

Wireless Data Transfer

By connecting a PC to a V9 via wireless LAN, transmission of screen program and the reading and writing of files through FTP server/client functionality becomes available. On-site debugging can be conducted easily, without the need for a cable connection.

Data Transfer via V9 Panels

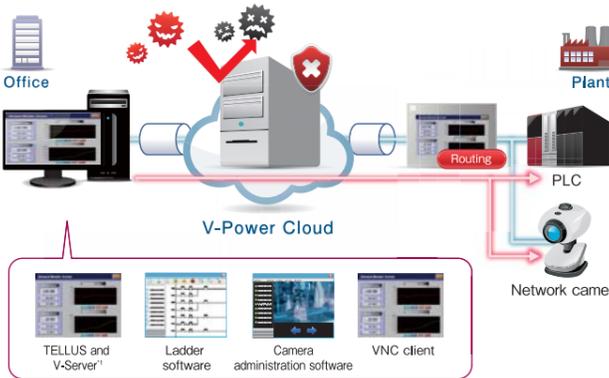

With macro EREAD/EWRITE, data can be transferred between machines using V9 panels as a gateway.

Networking

Secure, easy and low cost remote control by VPN

MONITOUCH, equipped with VPN (Virtual Private Network) function, facilitates secure remote control through a public network. In addition, VPN's routing function enables a V9 series unit to connect with PLC and network cameras via Ethernet.

*1 TELLUS and V-Server for V9 is under development.

E-mail Transmission Function

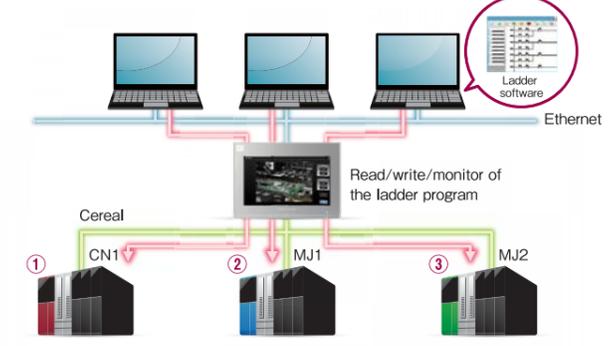

E-mails can be sent to preset addresses when alarms are issued or lifted. Addresses can be set for each type of alarm.

Secure Enhanced Security
SSL/TLS transmission is supported, so you can work with peace of mind.

Ladder Program Transmission (3-way) Support

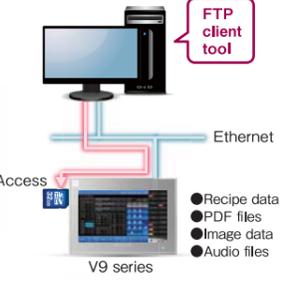

Up to 3 PLCs are accessible to monitor and revise PLC programs by connecting a PC to V9 via Ethernet.

FTP Server/Client Support

FTP Server Function

Files in a storage media inserted in a V9 can be read out and written using a PC.

FTP Client Function

Files on an FTP server can be read and written using a V9. It is also possible to use a V9 as an FTP server and access its stored data.

Easy verification of daily data and error reports

LOGGING

Improved functions for displaying trend data and alarms

Screen Overlapping

Improved Overlapping Functions

Up to 10 windows can be overlapped on the screen. No limit on the size of each window.

You can make all ten windows transparent at the same time.

All of the ten windows can be left displayed even when the screen is changed.

10 windows at once

Select items to display constantly.

Trend Data Display

Backup Data Display

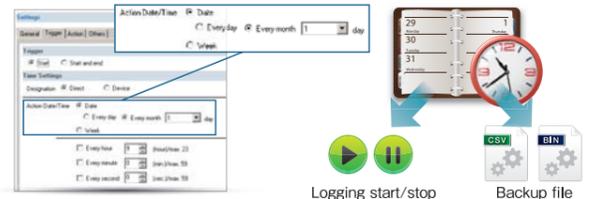

Backup files can be loaded and displayed on V9. Alarm backup data can also be displayed.

Coordination with the Scheduler

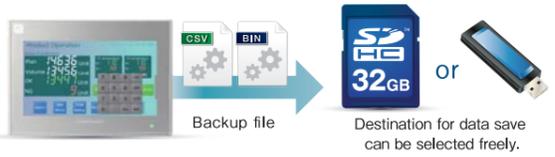

Operations such as bit output and execution of macro programs can be scheduled on a specific date and time. Also, start and stop of logging, and data saving can be conducted by setting the logging conditions.

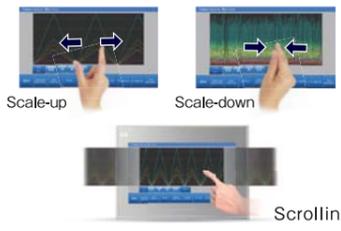

Logging start/stop Backup file

Easy Creation of Backup Files

By using the scheduler, backup files are automatically created at scheduled timings.

Magnification of Trend Graph Scale

The time scale of trend graph can be magnified, and the display can be scrolled by touch and drag.

Four-times of Normal Overlapping Windows

Four times more information than of normal overlapping windows can be registered and used as sub screen.

Various Screen Transition Functions

Four kinds of functions such as slide-in and fade-out are available for screen switching and overlapping.

Alarm Display

Scrolling of the Alarm Messages

The entire alarm message can be displayed by scrolling the screen with touch and drag.

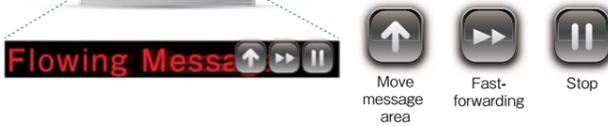

Scrolling the alarm messages

Running Emergency Messages

Alarm messages run automatically at a specified position when alarms are occurred.

Convenient tools for scrolling

OVERLAP

Exponentially improved display performance by extended functions

Easy and smooth operation with new functions

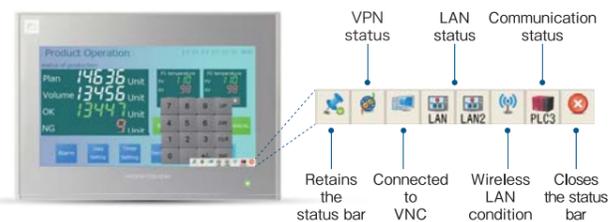

SETTING

Various setting functions for improving usability

Unit Display

Display of V9 Status

The status of V9 is displayed in the status bar.^{*3}

*3: The contents of the status indication are subject to change.

System Keyboard Available

A versatile keyboard for inputting upper and lower case letters and numbers is available for easy setting.

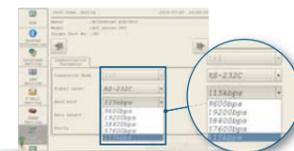

Select the system keyboard from the set menu.

Local Screen Settings

Transmission Settings

Transmission settings with connected devices can be modified on the V9.

Communication setting

Backlight Settings

Backlight settings can be modified on the V9.

Backlight setting

Buzzer Settings

Buzzers settings can be modified on the V9.

Buzzer setting

Operation Log

Improved Operation Log Viewer

The operability and visibility of the log viewer have been improved.

Log display area
Double-tapping for displaying details

Title line
Filtering for each item.

File change
A log file selected for display

Setting
Viewer display setting

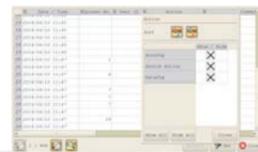

Search Function

Operation log can be searched for by specifying an operator or date and time.

Filter/Sort Settings

Filter and sort can be set for displayed items.

Display Item Settings

It is possible to select which items in the operation log to display, or not.

Recipe

Global Control Function

The ability to read and write to specified files and record data, regardless of the screen displayed, can be turned on or off using BITS.

Recipe file

① MO (BITS) ON

V9 series

② Transfer of the recipe data to D100, and onwards

Transferring recipe data to the PLC

D100	150
D101	30
D102	10
D119	5

Filter Settings

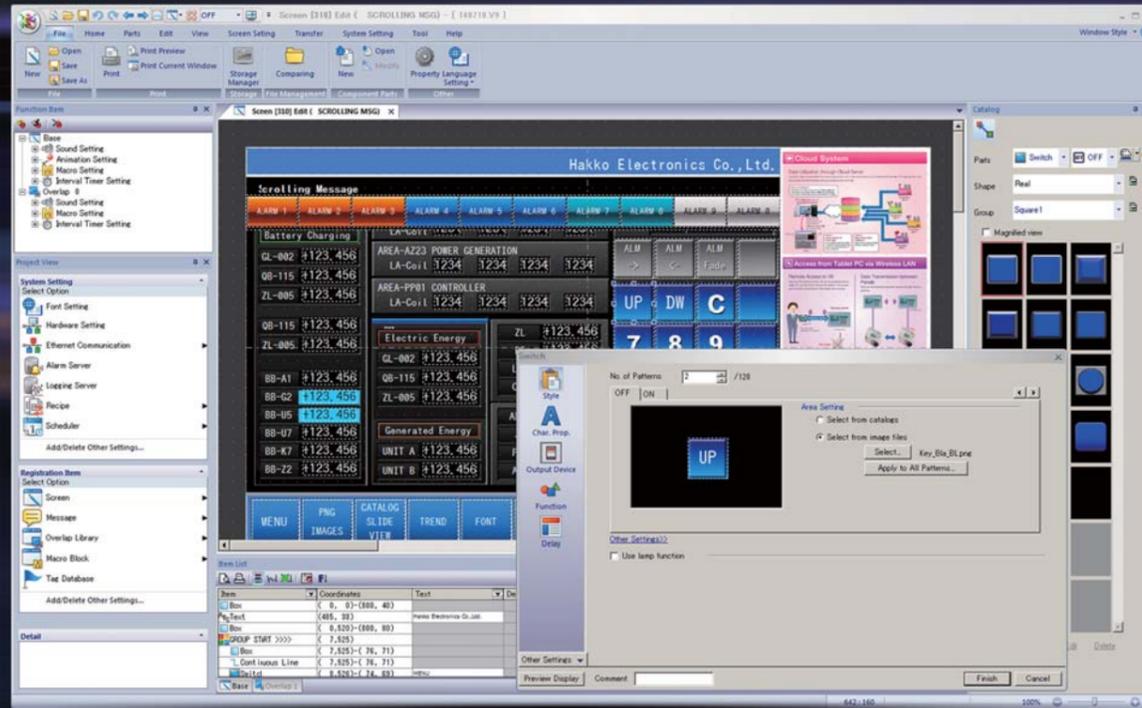

The required data can be easily extracted using the recipe selection list dialog to narrow down file and record searches.

Convenient

INFORMATION

Visualizing information for prompt recognition

Simple configuration of beautiful screens

V-SFT ver.6

PC	PC/AT compatible machine with Windows
OS*	Windows XP/ XP 64Edition/ Vista 32bit/ Vista 64bit/ Win 7 32bit/ Win 7 64bit/ Win 8 32bit/ Win 8 64bit/ Win 8.1 32bit/ Win 8.1 64bit
CPU	Pentium 4 2.0GHz or higher recommended.
Memory	2.0GB or more
Hard disk	For installation: 2.0GB or more available space

*1: For installing the OS, administrator authority is required.

Disc drive	DVD-ROM drive
Display	Resolution: 1024×768 (XGA) or more
Color indication	High color (16 bit) or higher
Others	Microsoft .NET Framework 4.0 or 4.5 is required. (When .NET Framework 4.0 or 4.5 has not been installed in PC, Framework 4.0 is installed automatically.)

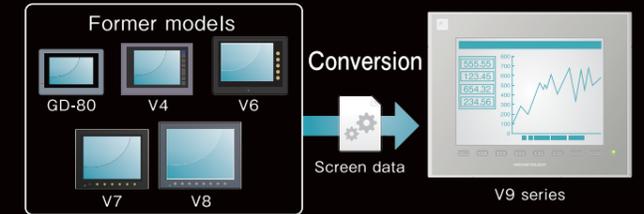

Compatibility with Previous Models

V8 series Compatibility

V-SFT Ver. 6 provides intuitive operation, with easy-to-use visual tools and refined displays. In addition to the V9 series, V-SFT Ver. 6 is also compatible with the V8 series.

Compatible with Data from Former Models

Screen data produced using previous versions of V-SFT can be converted for use in the current model. It is possible to use former screen data assets.

Configuration of Easy-to-view Screens

Wider Range of Parts

The number of picture icons has been increased, and the icons with plain design have been added. Pick from the wide range of ready-made icons for sophisticated representation.

Configuration of beautiful screens

Simple icons added

Popular simple icons that are used widely on smartphones have been introduced.

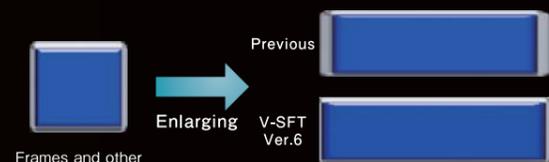

Increased picture icons

The number of the picture icons has been increased.

Improved 3D Parts Scaling Function

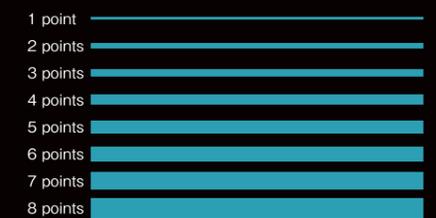

3D parts can be scaled up and down without changing the widths of frames. Frame size can be modified by batch, or individually according to the item type.

*1: For V9 series square picture icons and 3D parts with frames (excluding some icons and parts)

Line Width Setting

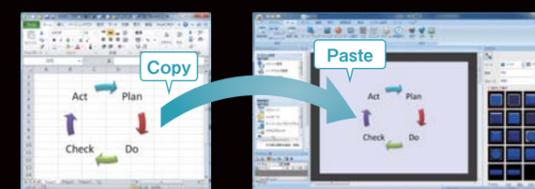

The line widths of graphic items and trend items (graph lines, reference lines) can now be set in eight steps. Effective screens can be created using a variety of drawing tools and graph representations.

*2: Excluding thick lines

Copy/Paste of Microsoft Office Data

Graphics created in Microsoft Office Word, Excel and PowerPoint can be copied and pasted into V-SFT files by converting them to pictures, patterns or parts.

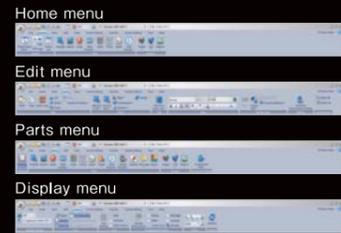

Pasting of an Image File

It is possible to paste a PNG file directly onto the screen. JPG, BMP and GIF formats are also supported as image files, allowing you to create whatever visually impressive screen you choose.

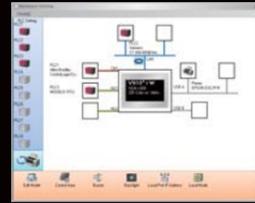

Upgraded Operability

Ribbon Menu

The ribbon-shaped menu bar is available. Enlarged icons are easily visible also improves the operability remarkably.

Graphic Indication of System Configuration

The improved hardware setting screen makes it easy to grasp exactly how devices are connected together in the system.

Docking Windows

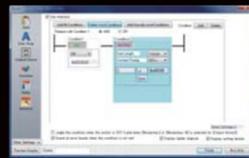

The project view windows and item view windows can be docked or floated easily.

Integration of Search Menu

The search menu, which used to be displayed separately, have now been integrated for easy operation.

Enhanced Interlocking Setting

Interlock can be set with a ladder drawing screen. Multiple conditions for interlocking can be easily set. It is possible to set interlocking for keypad indication conditions in addition to switch conditions. Up to five conditions (AND or OR) for a bit device, word device or security device can be set, which is suitable for setting complicated conditions.

Character String Table

Text for switches, lamps and other parts can be managed centrally using the character string table. Frequently used text can be registered in the table for easy reference and batch modification.

*1: Switches, lamps, text, and multi text only.

Facilitation of Screen Configuration

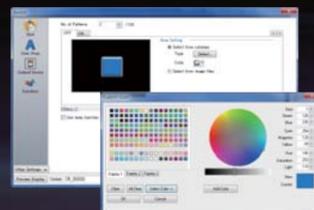

Guided Setting Process

With the help of the clear instructions in the dialog, setting can be conducted smoothly and collectively.

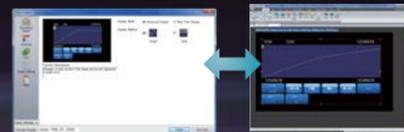

A Wider Range of Colors for 3D parts

65,536 colors are available for 3D Parts.

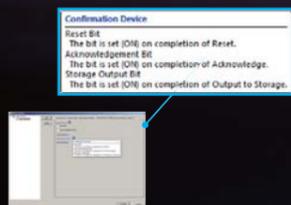

Visualization of Setting

Set conditions can be confirmed on the preview screen before completing setting. By switching the preview screen and setting dialog, the setting can be confirmed easily even on a PC with low resolution.

Tool Hints to Support Configuration

Tool hints are provided at many points to support configuration. When you hover the mouse over the item, a hint for operation will appear. You can learn the procedure for configuration without referring to the manual.

Direct Editing with the Item View

In the item view, an indication range and component parts consisting of various parts including switches are selected. Since there is no need to select various items respectively, smooth and efficient editing is possible.

Optional Units

Extension Units

GUR-00 (Video input 4ch)²

Displays images from video cameras on V9 directly.

GUR-01 (RGB input 1ch)

Displays RGB input on V9.

GUR-02 (RGB output 1ch)

Displays images of V9 on a monitor.

GUR-04 (Video input 1ch)

Displays images from a video camera directly.

GUR-10 (Video input 2ch + RGB input 1ch)²

Displays images from video camera and RGB input on V9 simultaneously.

GUR-11 (RGB input 2ch)²

Displays RGB images such as PC images through two channels on V9 simultaneously.

²: Scheduled for development.

DUR-00 (Dedicated optional unit for V9071iW/ V9060iTD)

Used for serial connection with D-Sub9pin.

Other Units

TC-D9 (Terminal converter)

Connects V9 with other units via RS-422/485 terminal.

V9-BT

A replacement lithium battery for V9 series.
*Excluding the V9071iW and V9060iTD.

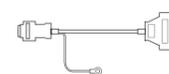

V7-BT

A replacement lithium battery for the V9071iW, V9060iTD and V8 series.

V9xxx-GS/V9xxx-GSN10

Protection sheets for panels (5 sheets per set). N10 is a non-glare type sheet. See P25 for details.

D9-D25

Replacement cable for CN1 cable of V6/V7 series.

Panel adapter (PAD-Vxxx)

Used when fitting V9 into V4/GD-80/GD-65/GD-64 panel cutout. Contact our technical helpdesk for details.

V9-ANT

Antenna for V9 models compatible with wireless LAN.

High-end specifications realize smooth

and accurate operation.

Flexible system configuration meets diversified requirements.

Advanced Model System Configuration

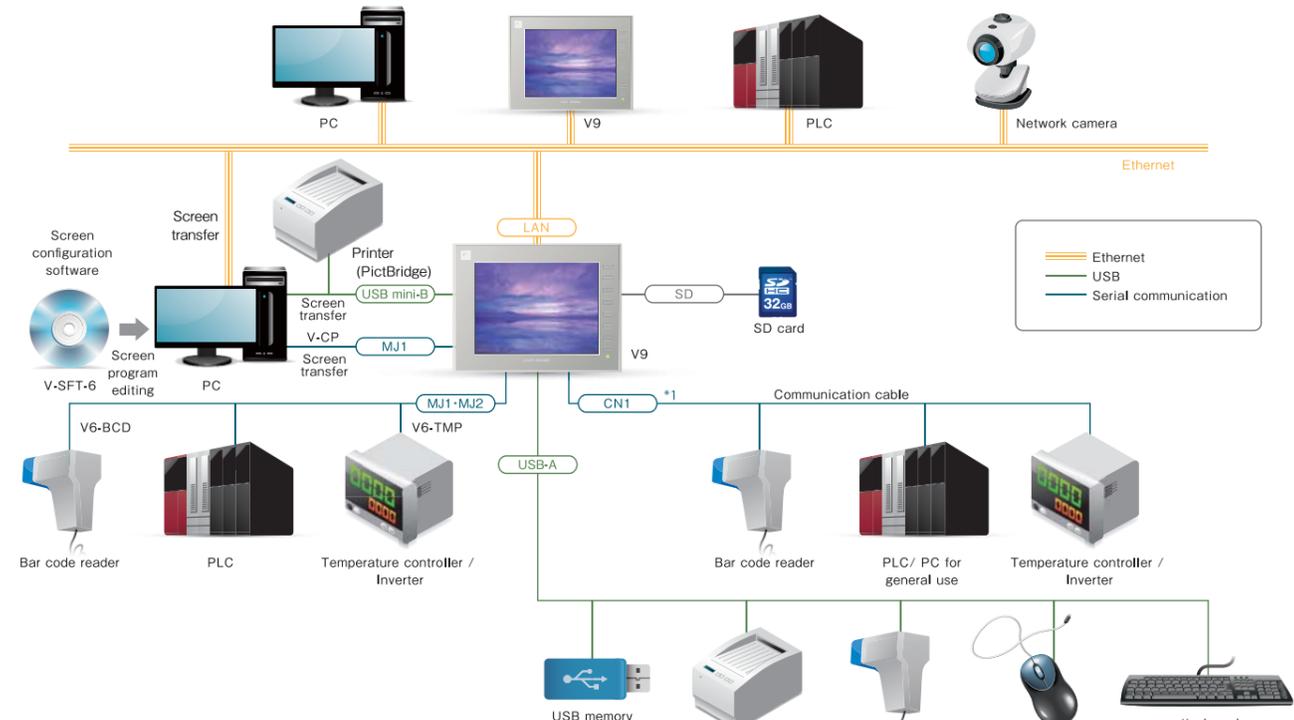

*1: Compatible only with models with Wireless LAN I/F.
 *2: V9101iW only
 *3: Optional unit DUR-00 is required when using the V9071iW.
 *4: V9101iW only. Optional unit GUR-XX is required.

Standard Model System Configuration

*1 The optional unit (GUR-xx) is required.

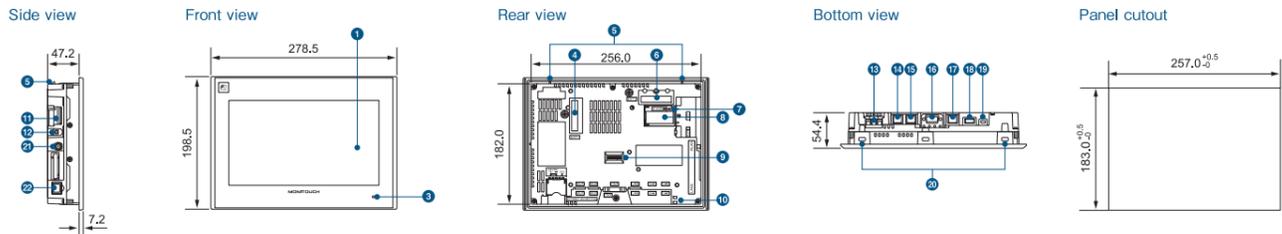

Lite Model System Configuration

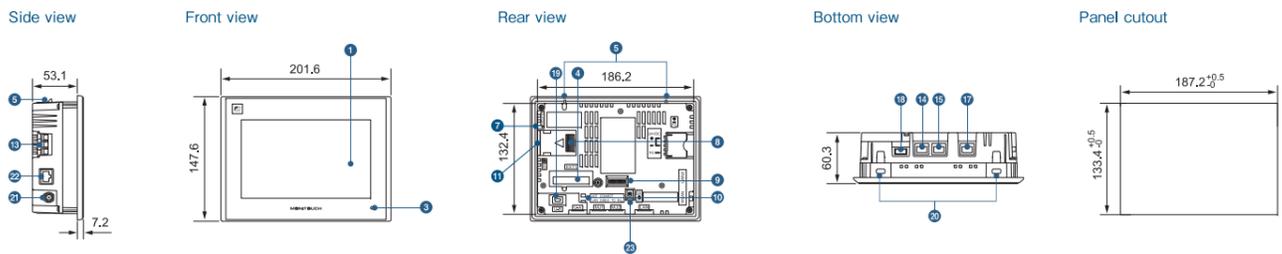

*1 The optional unit (DUR-00) is required for V9060iTD.

V8 Series – scaling new heights in performance, usability and connectivity.

MONITOUCH V8 series

Provided with revolutionary features for production sites such as 8-way communication and 16-million-color high-resolution video display, the V8 series has expanded the potential of programmable operator interface panels. The screen programs and panels of the V7 series are also compatible with the V8 series.

Rated voltage	24V DC	
Rated current	1A (load resistance)	
Contact point	a-contact, 1 circuit	
Mechanical life	250,000 times or more	
Electrical life	100,000 times or more (Switching frequency: 1,200 times/h)	
Function specification		
Emergency stop switch specification		
Key switch specification		
Deadman switch specification		
3-position	Switch type	3-position output (a-contact, 2 circuits**)
	Mechanical life	Off-On: One million times or more, OFF-ON-OFF (direct circuit): 100 thousand times
	Rated voltage	24V DC
	Rated current	1A (load resistance)
Momentary	Switch type	Momentary switch
	Mechanical life	One million times or more
Compatibility		
CE Marking	EN61000-6-2, EN61000-6-4	
UL-cUL	UL508*7	
RoHS directive	Complied	

*1: QVGA for V806.
*2: No optional port for V810iC, V808iC or V806i.

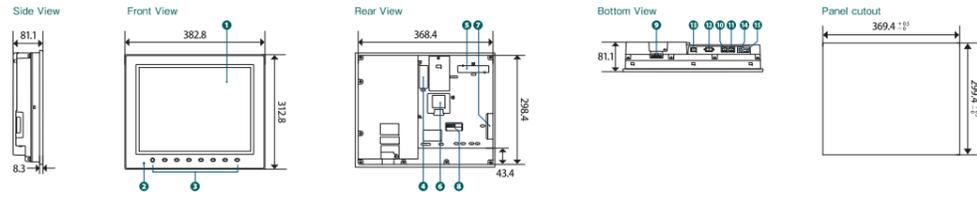

*1: Only when connected with SIEMENS MPI/PP1. *2: Only with 24V DC models. *3: Please contact us for a unit that complies with the marine standards.
*4: Please contact us for a unit that complies with UL1604. *5: Only when connected with SIEMENS MPI/PP1 (MJ2 only). Not available for D-Sub9 pin (option).
*6: Only when equipped with DU-10 (option). *7: Please contact our sales department for a unit that complies with UL508. *8: MJ2 is compatible with RS-422 (4-wire).
*9: a-contact: 2 circuits for CH4 and 1 circuit for CH2 and CH3 of V808(i).

Wide range of products and optional units

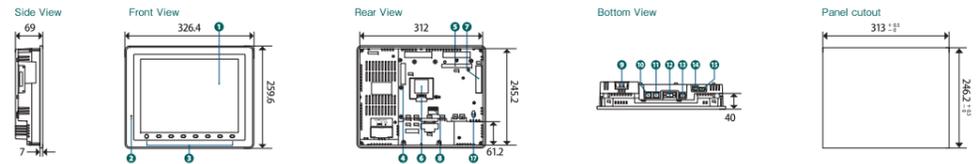

for expanding performance.

operations

To the purchasers of Hakko Electronics products:

The warranty of this product is as follows, unless there are special instructions that state otherwise in the quote, contract, catalog, or specifications at the time of the quote or order.

The purpose or area of use may be limited, and a routine checkup may be required depending on the product. Please contact the distributor from which you purchased the product, or Hakko Electronics for further information.

Please conduct inspection of the product promptly upon purchase or delivery. Also, please give sufficient consideration to management and maintenance of the product prior to accepting it.

1 Period and Coverage of the Warranty

1-1 Period

- (1) The period of the warranty is effective until twenty-four (24) months from the date of manufacture printed on the plate.
- (2) The above period may not be applicable if the particular environment, conditions or frequency of use affects the lifetime of the product.
- (3) The warranty for the parts repaired by Hakko Electronics' service department is effective for six (6) months from the date of repair.

1-2 Coverage

- (1) If malfunction occurs during the period of warranty due to negligence on the part of Hakko Electronics, the malfunctioning parts are exchanged or repaired free of charge at the point of purchase or delivery. However, the warranty does not apply to the following cases:
 - 1) The malfunction occurs due to inappropriate conditions, environment, handling or usage that is not specified in the catalog, instruction book or users' manual.
 - 2) The malfunction is caused by factors that do not originate in the purchased or delivered product.
 - 3) The malfunction is caused by another device or software design that does not originate in a Hakko Electronics product.
 - 4) The malfunction occurs due to an alteration or repair that was not performed by Hakko Electronics.
 - 5) The malfunction occurs because the expendable parts listed in the instruction book or catalog were not maintained or replaced in an appropriate manner.
 - 6) The malfunction occurs due to factors that were not foreseeable by the practical application of science and technology at the time of purchase or delivery.
 - 7) The malfunction occurs because the product is used for a purpose other than that for which it is intended.
 - 8) The malfunction occurs due to a disaster or natural disaster that Hakko Electronics is not responsible for.
- (2) The warranty is only applicable to the single purchased and delivered product.
- (3) The warranty is only valid for the conditions stated in (1) above. Any damage induced by the malfunction of the purchased or delivered product, including damage or loss to a device or machine and passive damage, is not covered by the warranty.

1-3 Malfunction Diagnosis

The initial diagnosis of malfunction is to be made by the purchaser. The diagnosis can be conducted by Hakko Electronics or its delegated service provider with due charge upon the request of the purchaser. The charge is to be paid by the purchaser at the rate stipulated in the rate schedule of Hakko Electronics.

2 Liability for Opportunity Loss

Regardless of the time of occurrence, Hakko Electronics is not liable for damage caused by factors that Hakko Electronics is not responsible for, opportunity loss on the part of the purchaser caused by the malfunction of a Hakko Electronics product, passive damage, damage due to a special situation regardless of whether it was foreseeable or not, or secondary damage, accident compensation, damage to products that were not manufactured by Hakko Electronics, or compensation towards other operations.

3 Period for Repair and Provision of Spare Parts after Production is Discontinued (Maintenance Period)

Discontinued models (products) can be repaired for seven (7) years from the date of discontinuation. Also, most spare parts used for repair are provided for seven (7) years from the date of discontinuation. However, some electric parts may not be available due to their short life cycle. In this case, it may be difficult to repair or provide the parts during the seven-year period. Please contact Hakko Electronics or its service providers for further information.

4 Delivery

Standard products that do not entail application setting or adjustment are regarded as received by the purchaser upon delivery. Hakko Electronics is not responsible for local adjustments and test runs.

5 Service

The price of the delivered or purchased products does not include the service fee for the technician. Please contact Hakko Electronics or its service providers for further information.

6 Scope of Application

The above contents shall be assumed to apply to transactions and product use in the country where a Hakko Electronics product is purchased. Please consult your local supplier or Hakko Electronics for details.
